Scope and content

Collection consists of photographs and related records created by a wide variety of sources and collected by the City of Winnipeg Archives and Records Control Branch. The photographs were originally collected as part of a proposed Winnipeg museum; further records were added to the collection after being transferred from various City of Winnipeg departments or received as unsolicited donations from the public. The photographs depict municipal government activities and infrastructure, geographical features, business and personal activities. In addition to municipal governments, creators of the photographs include professional photographers, private individuals and various publishers.
