Your Worship:

I am a graduate of the University of Manitoba and am now taking up post-graduate work in Economics at Columbia University. The subject for my M.A. thesis is "The Winnipeg Strike of 1919." As the seminar in Economics to which I am to report in December on the this subject consists of students from every quarter of the world, it is very important and necessary that I give them a correct view of the situation.

I am sure that you could assist me greatly in gathering material for the thesis. I would be deeply indebted to you if you would be so kind as to put me in touch with any literature on the subject or sources pertaining to it that in your opinion, would tend to insure an accurate presentation of this great crisis in Canadian Constitutional history.

Thanking you in anticipation of your kindness,  
I am,

Yours truly,

*Alex. Freeman*
